Mr. Tang
Draftsperson
U.S. Department Of Commerce
Patent And Trademark Office

Re: Multi Functional Furniture
Inventor: Mr. Francesco Casini
Application No. 09/775734

Dear Mr. Tang

I am in receipt of your " Notice Of Draftsperson's Patent Drawing Review" and in response to that notification regarding the above described patent application I am enclosing amendments to the drawings as requested.

I have insured that the drawings have been corrected as requested in chronological order as listed on your notification:

3. The drawings are now totally void of copy machine marks on drawings 1-19.
5. The margins on figures 10 and 16 have been corrected to meet your specifications.
10. The numbers and lines are now uniformly thick and are well defined, clean, durable and black.
12. All numbers and reference characters are now plain and legible on Figures 1-19.
The figure legends have been improved so as to be clear and legible.
All numbers and letters are at least 1/8' in height in figures from 1-19.

I have also added as instructed and **WITHIN** the top margin the name of the invention and inventor as well as the application number. I feel that these drawings should be acceptable to your office. Please understand that I am a 65 year old man that suffers from a right hand tremor that causes me to lose some motor skills. I have provided you with the best that I can possibly do under the circumstance. I cannot afford to hire a professional draftsperson. I sincerely thank you for every consideration.

I thank you in advance for your services.

Sincerely:

Francesco Casini
Inventor
